Transferology Instructions:

In order to use the Transferology website, you need to first **create an account**.

1. Click on the green button that says “Get Started!”
2. You have a few options; either sign in with a Facebook or Google account, or fill out your information to create the new account.
3. Once you have filled out your information, you will automatically be logged in. The first time you will also be provided with a quick tutorial map of what functions are available. You can always bring these information maps back if you click on the question mark in the upper right corner for Help.
Now that you’re logged in, you can create a Class List to evaluate.

1. The first step is to find your classes. When you start typing in the name of your school, the program will automatically bring up results. Click on your school when it becomes visible.

2. Once you have your school, you need to select the date of your credits. This is simply which semester or quarter, and which year.

3. Next, you will need to type in the name of the department of your classes. This is again a matter of typing in part of the name until you see the department in the dropdown options. Once you
see the department you want, click on it in the dropdown.

![Dropdown with Colorado State University selected]

4. A menu will appear below the search box that will list all of the available courses within that department from that institution. To add one to your account, simply click the blue-green plus sign to the right of the classes.

![Dropdown with Mathematics selected]

Don't see your course listed? Add it yourself.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH117</td>
<td>College Algebra in Context I</td>
<td>1</td>
</tr>
<tr>
<td>MATH124</td>
<td>Logarithmic &amp; Exponential Function</td>
<td>1</td>
</tr>
<tr>
<td>MATH125</td>
<td>Numerical Trigonometry</td>
<td>1</td>
</tr>
<tr>
<td>MATH126</td>
<td>Analytic Trigonometry</td>
<td>1</td>
</tr>
</tbody>
</table>

5. Once you add a class, you will see a green notification box appear to let you know it was added successfully. You will also see it added to the list on the right.
If you happen to accidentally add a class that you didn’t want, you can always click on the Trashcan icon to the right of the class under “My Courses.” You will be asked to verify if you want to delete the class, and when you click yes you will see a red notification box appear to confirm it was removed.

6. Continue this process until you have all of your classes.
7. If you have attended more than one school, you will end up with a secondary list above the first. Simply repeat the steps in finding the school’s name as previously explained in order to continue adding coursework.

8. For any credits you can transfer that come from Standardized Exams or Military Credits, simply click on the navigation buttons at the top of the search box to select it. Once you have picked your test or military organization from the dropdown menu, it will show what courses you can add to your class list.

**Standardized Exams:**
### Military Credits:

<table>
<thead>
<tr>
<th>Year</th>
<th>Organization</th>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>2014</td>
<td>Army</td>
<td>AR-0101-0002</td>
<td>DEPARTMENT OF DEFENSE PEST MANAGEMENT CERTIFICATION (Department of Defense Pest Management)</td>
<td>+</td>
</tr>
<tr>
<td></td>
<td></td>
<td>AR-0102-0007</td>
<td>ANIMAL CARE SPECIALIST</td>
<td>+</td>
</tr>
</tbody>
</table>

9. If you ever want to go back and add credits later, you can go up to “My Stuff” to select either courses or to check your matches again.
Now that you have your classes selected in the Transferology website, you can get your credits evaluated based on their compatibility.

1. Above your class list, click on the button that says “Find schools that accept my coursework.”

2. Again, if this is the first time you have used this feature, the site provides a guide for where everything is.

3. In order to select the school you are interested in transferring to, you have a few options. You can select a Zip Code for the area you are looking for; sort by Best Match, Distance, State, Tuition, Population, or School Type; or type in the Name of the institution.
a. You can also click the star icon next to the name of schools you are interested in so you can easily relocate them later.

About:
Our world-class research in infectious disease, atmospheric science, clean energy technologies, environmental science, and biomedical technology attracted more than $300 million in research funding annually. Our professional programs in veterinary medicine, occupational therapy, journalism, agriculture and construction management are ranked among the nation’s best. Colorado State is the ‘university of choice’ for Colorado residents; 30% of all of Colorado’s science, math, engineering and technology majors pursue degrees at CSU.
5. When you click to see the equivalencies of your credits to the new institution, you will again see grayed-out instructions on where everything is.

![Diagram of online interface]

6. At this point there are two things that you will see; what Matches, and what Misses.

- **Matches:**
  - Courses from: Colorado State University
    - BZ100 → BIOL1000
    - BZ105 → BIOL1060
  - The matches below indicate specific courses in the transferred course. Matches may change depending upon your choice of major.

- **Misses:**
  - Courses from: University Of Colorado Boulder
    - MATH124, MATH125
    - GEOL1010, GEOL1030
  - Two types of misses are listed below: additional coursework (shown in gray), and missed coursework.

When a course Matches, it means it comes in as that course. The school you are transferring to has a class that actually mimics the class you took, and so can give you credit for their own class.

When a course Misses, or does not Match, there are a few possibilities as to why. The first is that your class isn’t close enough to be given credit for a specific course, but they still transfer in however many credits from that department at that level, giving you Elective Credit. This can fit
into almost any part of your degree and is applied to your minimum 120 credits to graduate with. The only times an elective doesn’t help is if you need a prerequisite for another course, or a number-specific course for your program. Sometimes, the class you took at one school has no match at all to the school you are transferring to, and therefore cannot transfer at all. This will also be true for classes below a 100/1000 level (remedial courses do not transfer). The third possibility is that you do not have an additional requirement according to the new school; this can include a lab to a class that is listed separately.

The Transferology page will explain what is going on with each class, and provide you with the contact information of the school so you can submit a request for information. Please note that you can always Request information to contact the institution you want to transfer to in order to find out more about the situation based on certain credits.
Now that we know how to check which schools will accept your classes, let’s look at checking how those courses will affect your **degree plan**.

1. When looking at the institution you’re interested in applying to, go to the right and select the **Apply courses to a program** button.

2. You will be presented with a list of all of the degrees available at that institution, and each listed degree is a link. Simply click on the link of the program that you are interested in pursuing.

3. Once you select your degree, you will have an option of seeing if the school lists any information about the program itself. If you are still interested, go ahead and click the **See how your courses might apply to this program** button.

4. You will be asked to confirm if you want to run a degree plan check with your listed courses.
When you select Yes, you will be prompted to provide some additional academic information. Once you are done, click Next. You will be asked to verify your understanding of the equivalency check being based on the assumption that all coursework is of a passable grade. Check the box and hit Go to run the degree plan.

5. Once your degree plan report has been submitted, a small green notification box will appear to confirm that your request has gone through.
6. In order to view the report, you will click on My Stuff at the top of the window, and from the dropdown select Programs.

The page you will be taken to will show all of your program requests, which also demonstrates your capability to do several program requests with different degree programs and institutions.

There are several points of interest to see on this page.

The blue program link is what you click to actually see your results. It will tell you which school you are viewing, as well as its status.

If it is ready to view, you will see the green checkmark. Wait until you see this checkmark before trying to view your results; if it gives a percentage, it means it is still processing the request and is not ready to show the information yet.

You may also email the results to the transfer office of the institution to get more information, or delete the program request by clicking on the corresponding icons (the envelope or the trash can).
7. When viewing your results, you will see what is called a degree audit report (DARS). It will show you precisely which areas your credits will affect, and what areas for that program you would still need to complete.
While every effort is made to provide accurate and current information, University of Colorado reserves the right to modify course requirements without notice. It is the responsibility of the student to verify that all course requirements applicable at the time of last/degree enrollment are met.

TAXES AT COLORADO STATE UNIVERSITY

**Letters, Arts & Sciences - General Information**

**EARNED:** 33.0 HOURS

**ADDED:** 8.0 HOURS

1) MINIMUM HOURS
   - A minimum of 120 applicable hours (excluding courses under "Work Not Applied") is required.
   - 33.0 HOURS EARNED:
     - ST12 E677123 3.0 T
     - ST12 E691120 3.0 T

2) INDEPENDENT STUDY COURSE RESTRICTIONS - MAJOR
   - No more than 8 hours of Independent Study Anthropology courses may apply towards the degree.

**Letters, Arts & Sciences - Anthropology Required Courses**

1) ANTHROPOLOGY REQUIRED COURSES
   - Complete all courses and requirements listed below.
   - All courses must be completed with a grade of "C" or better.

   - 2) ANTH 1020 Introduction to Archaeology
   - 3) ANTH 1030 Introduction to Human Origins
   - 4) ANTH 1040 Introduction to Cultural Anthropology
   - 5) ANTH 2800 The Nature of Language
     - Prerequisite: ANTH 1040 or sophomore standing
8. Once you have this degree audit, you can communicate more effectively with an academic advisor about classes you still need to take, class schedules, and additional program requirements.

You can always contact our Center for Advising and Student Achievement for academic advising as an incoming student (www.casa.colostate.edu; 970-491-7095), or contact your department of choice for the contact information for one of their academic advisors.

We would like to note that Transferology.com is a third-party site that includes many, but not all schools that can transfer credits to Colorado State University. The most important thing is to make sure that your school is regionally accredited.

If your school is not listed with Transferology, or if you have any questions about the equivalencies listed with Transferology, please contact Colorado State University’s Transfer Student Center for more options on checking class equivalencies.
